

Dementia Skills Training- Positive Physical Approach

Wednesday

April 12, 2017

8:30am-12pm

Workshop Description

This 3 hour workshop will help learners know how to approach and connect with those living with dementia, using Teepa Snow's positive physical approach. The Learner will develop better observational skills to recognize and intervene effectively when vision changes occur with dementia. The Learner will also develop new skills related to approach, cueing and ability to connect with people living with dementia. The workshop emphasizes the value of matching helping behaviors to the person living with Dementia's needs and retained abilities. The workshop will also address typical issues that occur as dementia progresses and how to promote a sense of control and self-direction in the person living with Dementia.

Workshop Objectives

...

By the completion of this 3 hour workshop Learners will be able to:

1. Describe changes in visual processing when dementia is present.
2. Discuss the rationale that supports each step of the PPA process.
3. Demonstrate PPA in simulated situations, using at least 75% of all the steps with coaching support.
4. Demonstrate hand-under-hand technique in at least four possible applications.
5. Discuss the purpose and value of using hand-under-hand technique with people living with dementia.

Who should come?

Jean McGuire R.N. M.S.

Jean earned her Bachelor's degree in Nursing from Duquesne University in Pittsburgh and her Master's degree in Community Health from Boston University. She has taught nursing at Emory University in Atlanta and at Western Carolina University in Cullowhee, NC. Jean has worked as a nurse clinician in public health and mental health before joining Mountain Home Care in 2012. Today, Jean is proud to be a trainer in Teepa Snow's Positive Approach to Care and feels strongly about the value that the Positive Approach to Care will add to Dementia care in Western North Carolina.
