

THE GEMS™ – SEEING MORE THAN LOSS IN THOSE LIVING WITH DEMENTIA

Wednesday, May 3, 2017

1:00-4:00p

Workshop Description

The workshop offers an overview of Teepa Snow's Dementia Abilities Model, the GEMS™. The GEMS™ model compares different stages of dementia to the characteristics of precious jewels. This dignified metaphor defines normal aging as well as the many appearances, behavior changes, skill sets and needs of those living with the progressive effects of dementia. Understanding the GEM™ levels will lead to an adjustment of expectations, communication and hands on care to better meet the ever-changing needs of these individuals. The GEMS™ advocate that people living with dementia, when given just the *right care* in the *right setting* can still shine.

Workshop Objectives

By the completion of this 2.5 hour workshop, learners will be able to:

- Describe the difference between the term dementia and Alzheimer's.
- Identify the four features that are true about all forms of dementia.
- Describe at least two characteristics of each of the six GEM™ levels.
- Discuss ways to adjust expectation, communication and hands on care to better meet the needs of someone at each GEM™ level.

Jointly Provided

Who Should Attend?

RNs, LPNs, Nurse Practitioners, CNAs, Medical Assistants, Social Workers, PTs, PTA, OTs , OTAs, Spouses, Family Members and others who are new to the Positive Approach™ to Care – PAC

BIO:

Jean McGuire R.N. M.S.

Jean earned her Bachelor's degree in Nursing from Duquesne University in Pittsburgh and her Master's degree in Community Health from Boston University. She has taught nursing at Emory University in Atlanta and at Western Carolina University in Cullowhee, NC.

Jean has worked as a nurse clinician in public health and mental health before joining Mountain Home care in 2012.

Today, Jean is proud to be a trainer in Teepa Snow's Positive Approach™ to care and feels strongly about the value that the Positive Approach™ to Care will add to Dementia care in Western North Carolina.
